

AMENDMENT TO THE SPECIFICATION

Please amend the Abstract of the Disclosure as follows:

The invention is an advertising apparatus for produce and candy vendors made of at least one earring clip with back side and front side for engaging a non-pierced ear, at least one hook secured to the earring clip, and at least one edible food item removably secured to the hook to the earring clip, and at least one edible food item removably secured to the hook, wherein the edible food item is a fruit, a vegetable, or combinations thereof.

Please amend Paragraphs [00011], [00012], and [00013] of the Specification as follows:

[00011] The invention is an advertising apparatus for produce vendors. As shown in Figure 1, the invention has at least one earring clip (10) with a back side (11) (shown in FIG 2) and a front side (13) for engaging a non-pierced ear (100). At least one hook (12) is secured to the earring clip (10). At least one edible food item (14) or two food items (14a) can be removably secured to the hook (12). The edible food item can be selected from the group: a fruit, a vegetable, candy and combinations thereof.

[00012] FIG 2 shows that the advertising apparatus can be made from at least two hooks (12) (15) connected in series[. But] , but up to three or more hooks can be used.

[00013] FIG 2 shows the second embodiment of the invention, wherein the earring clip can have an LED light (16) secured to the earring clip that automatically lights up the hook (12) in dim light by a switch (20) secured to the earring clip. Alternatively, the LED light (16) can be a blinking LED light. The light can have a switch (20) secured to the earring clip. The blinking light version has a lot of appear in that it can not only shine on the food but it and can attract a buyer's attention to the food on the hook of the earring. In the embodiment of FIG 2, [[3]] three food items, (14,) (14a) and (14b) can be put

on each of the hooks, (12), (24) and (22).

Please amend Paragraph [00016] of the Specification as follows:

[00016] In still another embodiment of the invention, ~~is shown~~ an advertising apparatus for candy vendors ~~comprising~~; comprises at least one earring clip for engaging a non-pierced ear; at least one hook secured to the earring clip; at least one chewy candy item (26) removably secured to the hook.

Please amend Paragraph [00018] of the Specification as follows:

[00018] FIG 3 shows still another embodiment of the candy and vegetable display item[[, the]]. The earrings could include a line (19) between the clip and the hook (12). The line is used to connect the hook to the earring clip. Another hook (24) connects to the line further from the earring clip than the first hook (12), such that the hooks are connected in sequence. Candy (200) can be hooked onto one hook (24) or alternatively onto both hooks (12) and (24).

Applicant believes that no new matter has been added with these amendments.
